Kampf R, Kampf-Rekelhof C.C.M. Two Dutch birders in Canada. *Canadian Birding* 1991; 2(1):3-17

Claassen T.H.L, Kampf R., 2004. Waterharmonica - a new and widely applicable concept for integrated water management. A report of the Waterharmonica session during the 7th Intecol Wetlands Conference on July 29th 2004. *EcoEng Newsletter* (No.10, December 2004)

Kampf, R.; Toet, S.; Schreijer, M.; Verhoeven, J.T.A., 1996. A constructed wetland system as a buffer between an oxidation ditch and areas with high ecological values, 5th International Conference on Wetland Systems for Water Pollution Control ed., poster. 96 Sep 15-96 Sep 19; Vienna, London

Kampf R., 1996. A note on the feeding behaviour of Magellanic Plover *Pluvianellus socialis*. *Wader Study Group Bulletin*, 80, nr. 709

Kampf, R.; Schreijer, M.; Toet, S.; Verhoeven, J. T. A.; Jak, R. G.; Groot, M., 1998. From sewage to (re)usable surface water, the use of a full-scale constructed wetland to improve the quality of the effluent from an oxidation ditch in The Netherlands. In: Jha P.K., Karmacharya S.B., Baral S.R., Lacoul P., 2000. International Conference on Environment and Agriculture, Environment and Agriculture, at the crossroad of a new millennium Ecological Society (ECOS); Nov. 1-3, 1998; Kathmandu, Nepal

Harmsen J., Toorn A. v.d., Boels D., Vermeulen B., Waarde J.v.d., Duijn P.N., Kampf. R., 1999 . Growing biomass to stimulate bioremediation: technical and economic perspective. In: Leeson A, Allemna B.C. *Phytoremediation and Innovative Strategies for Specialized Remedial Applications* - 5(6). Batelle Press, San Diego, USA

Kampf, R.; Jak, R., 1999. Growing *Daphnia* on effluent to improve the food situation of Spoonbills on the island of Texel, do *Daphnia* really eat sludge? 4th International Conference on Ecological Engineering for Wastewater Treatment, 7-11 June 1999, As, Norway

Kampf, R.; Schreijer, M.; Toet, S.; Verhoeven, J. T. A., 1999. The Eversteekooog constructed wetland, a four year research project on full scale to change effluent from an oxidation ditch to (re)usable surface water 476. As, Norway

Bolt E., Claassen T.H.L., Kampf R., 1999. Closing the nutrient cycle: why and how. A way to reduce waste water problems. Report on a workshop on community management of waste water (treatment and disposal) in low-income, semi-urban communities in the Kathmandu valley, Nepal, 2-13 November, 1998. [http://www.rekel.nl/water/nepal\\_workshop/index.htm](http://www.rekel.nl/water/nepal_workshop/index.htm), IRC, The Hague, The Netherlands

Kampf R., Eenkhoorn B.J., Foekema E.M., Dokkum H.P., 2003. Can Spoonbills play a role in "integral water management" on Texel? In: Veen J., Stepanova O., editors. *Wetland management for Spoonbills and associated waterbirds*, Report of the 68th EUROSITE Workshop, 19-21 April 2002, Texel, Tilburg, The Netherlands

Kampf, R.; Graansma, J.; Dokkum, H.P.; Foekema, E.M.; Claassen, T.H.L., 2003. Increasing the natural values of treated wastewater on the island of Texel, the Netherlands. IWA conference

Efficient use and management of water for urban supply, Tenerife, Canary Islands, 2 - 4 April 2003; Tenerife, Spain

Kampf R., Claassen T.H.L., Graansma J., Dokkum H.P., Foekema E.M., 2003. Increasing the natural values of treated wastewater, the Waterharmonica, the missing link to transfer treated wastewater into a usable surface water. In: Mander Ü., Vohla C., Poom A., editors. International Conference Constructed and riverine wetlands for optimal control of wastewater at catchment scale. Tartu, Estonia

Martijn, E.-J.; Kampf, R.; Claassen, T.H.L.; Mels, A., 2003. Use of the Waterharmonica for conversion of treated waste water into a natural resource in the developing world. Ecological Engineering for Integrated Water Management (Oct. 30 - Nov. 2, 2003) Harvard Graduate School of Design, Cambridge Mass., USA

Toet S., Hersbach L., Logtestijn R. van, Schreijer M., Kampf R., Verhoeven J.T.A. Periphyton biomass and nutrient uptake in Phragmites and Typha stands used for polishing sewage plant effluent and:

Toet S., Logtestijn R. van., Schreijer M., Kampf R., Verhoeven J.T.A., 2003. The functioning of a wetland system used for polishing effluent from a sewage treatment plant.:

In: Toet S., 2003. A treatment wetland used for polishing tertiary effluent from a sewage treatment plant: performances and processes. Thesis, Universiteit Utrecht, The Netherlands

Kampf, R.; Claassen, T. H. L., 2004. The use of treated wastewater for nature: The Waterharmonica, a sustainable solution as an alternative for separate drainage and treatment, IWA, Let2004, Prague, Czech Republic

Kampf, R.; Claassen, T.H.L., 2004. The use of treated wastewater for nature: The Waterharmonica a sustainable solution as an alternative for separate drainage and treatment, International Conference "Upgrading of Wastewater Treatment Plants", IWA, NVA, Amsterdam, The Netherlands

Kampf, R.; Claassen, T.H.L., 2004. The Waterharmonica session, 7th Intecol International Wetlands conference, Utrecht. Waterboard Hollands Noorderkwartier, Purmerend

Mels A, Martijn E-J, Kampf R, Claassen T.H.L., 2005. 'Waterharmonica' in the developing world. Stowa 25-21, Stowa, Utrecht,

Kampf, R., Geest H. van der; Claassen, T.H.L., Sala, L., 2006. Sludge particles as food source for Daphnia. 1st Annual Meeting of the Society of Wetland Scientists – Europe "Integrating our approaches to Wetland Science", Bangor, Wales, UK.

Sala, L., Claassen, T.H.L., Kampf, R., Sala, J., Boix, D., Geest H. van der, 2006, Trophic webs from discharges: nature enhancement through the Waterharmonica concept. 1st Annual Meeting of the Society of Wetland Scientists – Europe "Integrating our approaches to Wetland Science", Bangor, Wales, UK.

Slijkerman D.M.E., Foekema E.M., Jak R.G., Kampf R., Straalen N.M. van., 2006. Decomposition of alder leaves as a functional bioassessment tool: evaluation of contaminated sediments. Journal of Soils and Sediments, in: Slijkerman D.M.E. Application of functional endpoints in water quality assessment. Thesis Vrije Universiteit, Amsterdam

Ruud Kampf, Harm van der Geest, Lluís Sala, Anna Romani, Joaquim Comas, Theo Claassen, Sybren Gerbens, Remmie Neef, Wilbert Menkveld, 2007. Biological filtration of treated waste water by Daphnia: an alternative for technical filtration, or an addition? IWA 6th Conference on Wastewater Reclamation and Reuse for Sustainability, Antwerpen
